

Dear Campers and Parents/Caregivers,

Welcome to a water program at Camp Four Echoes. We're excited to welcome so many campers to enjoy the jewel of our camp program: Lake Coeur d'Alene!

Please remember that there are risks inherent in each kind of water activity (falls, capsizes, bad weather, etc.) To manage these risks, campers will participate in safety orientations prior to each kind of water activity that will teach safety measures to help prevent accidents and injuries, such as how to use each piece of equipment and recognize unsafe conditions.

Since girls are participating in a water unit, here are a few things to consider bringing to camp:

- An extra bathing suit and towel. One can be hanging out to dry while the other one is in use.
- Water shoes (like aqua socks) or water sandals with back straps (like Chacos or Tevas) to wear on the dock or in the boats. Flip flops will only be allowed while showering.
- Extra plastic bag for wet items that don't get dry in time for packing to go home.

A sample schedule for a typical day at camp can be found in the Parent Guide on our website. In addition, campers may wish to bring a white t-shirt, pillowcase or other item that would be fun to tie-dye or decorate. This is a popular activity at camp!

If you have any questions, please feel free to call or email.
